

Year 3 Advent term **Pick and Mix Grid 2026**

Advent Topic– The Stone Age

Creative 1

Create a 3D scene from the Stone Age in a box. A shoe box would be ideal.

Think about the different ages within the Stone Age e.g. Palaeolithic, Mesolithic, Neolithic.

The biggest difference is the type of dwelling and activities they do.

You could use a wide variety of materials such as Lego, Fimo, paper mâché, and natural materials. Do make sure all the animals/ people etc are stuck down.

Have fun!

Creative 2

Design and make a 3D Stone Age animal.

For example, a Woolly Mammoth or a Sabre Tooth Tiger.

You can get lots of ideas from the internet e.g. Pinterest.

Really think about the materials that could be used.

Have fun! The size is up to you!

Take your pick from the tasks above. You need to complete **one** of the above options and bring it into school by **Monday 28th September 2026**. These will be going on display for open day.
